

## **Ireland Fellows Programme – Vietnam Pilot PhD Exchange Call for Applications**

### **Background**

The Ireland Fellows Programme Pilot PhD Exchange is a new initiative under the Ireland Fellows Programme to provide a prestigious award for excellent research. It offers selected suitably qualified PhD students in partner higher education institutions in Vietnam the opportunity to study for one year at a higher education institution in Ireland as part of their PhD programme. The award is fully funded and covers programme fees, flights, accommodation and living costs for the year in Ireland, as well as eligible direct research expenses of up to €3,250 to enable the awardee to carry out the research project in Ireland. Up to three awards will be made in 2022. The Ireland Fellows Programme promotes gender equality, equal opportunity, and welcomes diversity.

The aims of the Programme are:

- To nurture world-class future leaders;
- To develop in-country capacity to achieve national SDG goals;
- To build positive relationships with Ireland.

The Programme is intended to enable researchers on their return home and on completion of their PhD to leverage their high-level skills, knowledge, and talent to contribute to capacity building in their home country. Successful awardees under the programme are recognised as demonstrating world-class potential as future leaders in their respective fields. It is also envisaged that they will contribute to building enduring positive personal and professional relationships with Ireland, promoting institutional linkages.

The Ireland Fellows Programme is fully funded by the Irish Government and is offered under the auspices of the Department of Foreign Affairs (DFA). The Programme aligns with the Irish Government's commitments under [Global Ireland](#) and the national implementation plan for the [Sustainable Development Goals \(SDGs\)](#), [The Global Island: Ireland's Foreign Policy for a Changing World](#), [A Better World: Ireland's Policy for International Development](#), and [Ireland's International Education Strategy](#).

The *Ireland Fellows Programme PhD Exchange* initiative is managed by the Department of Foreign Affairs in partnership with the Irish Research Council (IRC). Programme implementation in Ireland is supported by the Irish Council for International Students (ICOS).

The support provided is for research purposes and will not result in a separate qualification.
